
YACHT CLUB ILHABELA Master Plan and Preliminary Design, Ilhabela, Brazil

Yacht Club Ilhabela Board of Directors/ SCG

Master planning and preliminary design of land and water areas for major renovation and expansion of existing site of city of Sao Paulo's most prestigious yacht club, located on popular offshore resort / recreation island of Ilhabela which serves as one of Sao Paulo's major weekend offshore recreational boating base and tourism destination. Plans and designs covered: new clubhouse/ dining facilities; new pools; new breakwater and 800 slips; new stack storage facility for 350+ boats and expanded on-trailer dry storage for 200 boats. Also included are a new full-service boatyard with 100-ton Travellift pier; dry/stack launch facilities; boat sales and rentals; a charter base for fishing, diving and sailing charters; a fuel dock and parking and site landscaping. A full service pier for a local fleet of commercial fishermen is included, along with seafood icing and storage facilities and a seafood store. Project implemented in phases, with fihermen's complex and fuel dock pier , new dry storage and partial new docks constructed initially.
